學歷

Sep 2018 - Jun 2022

淡江大學

資訊工程學系全英語學士班

技能

Languages

- Java Script (ES6)
- Css3
- Html5

Language

- Chinese
- English(IELTS 6.5)

關於我

您好,我是蔡沛倫:

畢業於淡江資工全英文學系。在學期間讓我對程式有了更深入的了解,並在英文上面多了許多的實際交流經驗,經過四年的學習後發現自己比較喜歡前端這種能在視覺上看出成果的語言,便決定往前端的方面繼續前進。

一. 個人特質

大家都說我是個和善的人,但我只是單純的尊重他人並盼望與他人建立良好的人際關係,畢竟這是實現共同目標的關鍵。

不喜歡二分法,喜歡思考通往同個目的地的不同道路,並樂於分享我的想法和經驗給我的朋友與團隊做參考。

清楚天下沒有白吃的午餐,但也不是喜歡冒險的人,喜歡抱著務實的心態一步一腳印去爭取我想要的東西。

二. 工作經驗

從高中開始便開始參與各種打工,這些經驗使我不只對職場運作的方式有深刻的體會,也體會了許多學校教不來的東西。比如說在尖峰時段的壓力下保持冷靜並有效地解決問題,學著將被指派的工作有效的組織,同時也學會了如何和同事與上級合作,共同解決各種意外與挑戰。

但在所有的工作機會中都能體會到的是:作為一個負責,可信賴的人是有多麼的重要,當一個團體中有不負責任的人存在時,對整個團隊的影響是巨大的,在學業上是如此,在工作上更是如此。

三. 目前規劃

正在持續精進自己的前端技術,已經如無底洞一般的技術仍在日新月異的改變,必須要持續地跟上才行

About Me

Hi! I'm Perry!

Graduated at Tankang University CSIE English Department. During my studies, I gained a deeper understanding of programming and tons of actual communication skill with my English. After 4 years of school I realised that frontend development as a more visualized language is what I loved the most, hence decide to pursue further.

1. Personal Traits :

People often describe me as friendly, but I just simply respect others and aim to build good relationships with everyone, as it is crucial for achieving common goals.

Hate to think in a binary way, love to explore different path leads to the same destination, and love to share my thoughts and experiences with friends, teammates and colleagues.

Understand that there's no such thing as a free lunch, yet I'm not quite a risk-taker. Prefer a pragmatic approach, one step at a time to obtain what I desire.

2. Work Experience :

Has been engaged in various part-time jobs since high school. These experiences not only provided me with the basics of how the workplace operates, but also taught me things that cannot be learned in school. For instance, I have learned to stay calm and effectively solve problems during rush-hours, learned to organize assigned tasks efficiently and collaborate with colleagues and supervisors to solve unexpected challenges together.

However, the most important lesson I have learned from all my workplace is the significance it is of being a responsible and reliable individual. When there is someone in a team who lacks responsibility, it has a significant impact on the entire team. This holds true not only in school but also in the workplace.

3. Current Plans :

I am continuously improving my frontend skills. The fast and ever-evolving nature of technology feels like an endless hole, and I must keep up with the changes to stay competitive.
